Shipping Polycarbonate Goods

LIABILITY WAIVER AGREEMENT

It is agreed that the shipment of Polycarbonate Goods accepted by EcoFort Innovations Corp. for **(customer full name)**, for destination to **(destination address)** and given order number **(order #)**, is being accepted with the following conditions.

Due to the fragility and size of the product, there are risks involved in shipping polycarbonate panels with any courier or shipper. EcoFort Innovations agrees to package the panels safely for transportation, but this does not eliminate risks of damage during the transportation process. EcoFort Innovations is unable to mitigate, or manage, these risks once the product has left the warehouse in Calgary.

It is agreed that by accepting the said shipment, the customer understands that EcoFort Innovations Corp. does not carry any liability for damages or delivery date changes reported in transit, at time of delivery, or beyond.

The purchasing customer, **(customer full name)**, agrees to hold EcoFort Innovations Corp. and any of its employees exempt from damage liability, and further agrees to file any claims directly to the shipping company with which the product was sent.

Shipping & delivery will not be completed until this waiver form is returned, completed in full, and full payment is submitted on the order.
